Meantime...what to do?

Some proposals:

- 1- to download all previous documents from the current PNAE website
- 2- to think how we would organize the PNAE previous and future documentation
- 3- to reconnect with the country that are not present in the actual PNAE website
4. To prepare new possible documentation for the new website (e.g. new international papers, or link to international organization and short illustration of the organization- 'useful link')
5. To organize the photograph of PNAE meeting we would on new website
6. A presentation letter of the PNAE Coordinator

7- Other ideas???

... Who would like to take these tasks?
A little task for everyone, it is sustainable

How should PNAE organize these activities for the website?

A little task for everyone, it is sustainable

We should manage directly and in autonomous manner the PNAE website
(PNAE ...webmaster..😊)

The importance of PNAE Website

- Sharing important contents to better care children
- Taking connection with pediatric nurses across Europe
- Giving visibility to pediatric nursing care
- ...many other issues “*the appetite comes with eating*”

We should stay ready to give **visibility** at the new website
→ → specific strategies and

PNAE Conference in Tartus a good opportunity

Last but not least: Which name at the PNAE WEBSITE ?

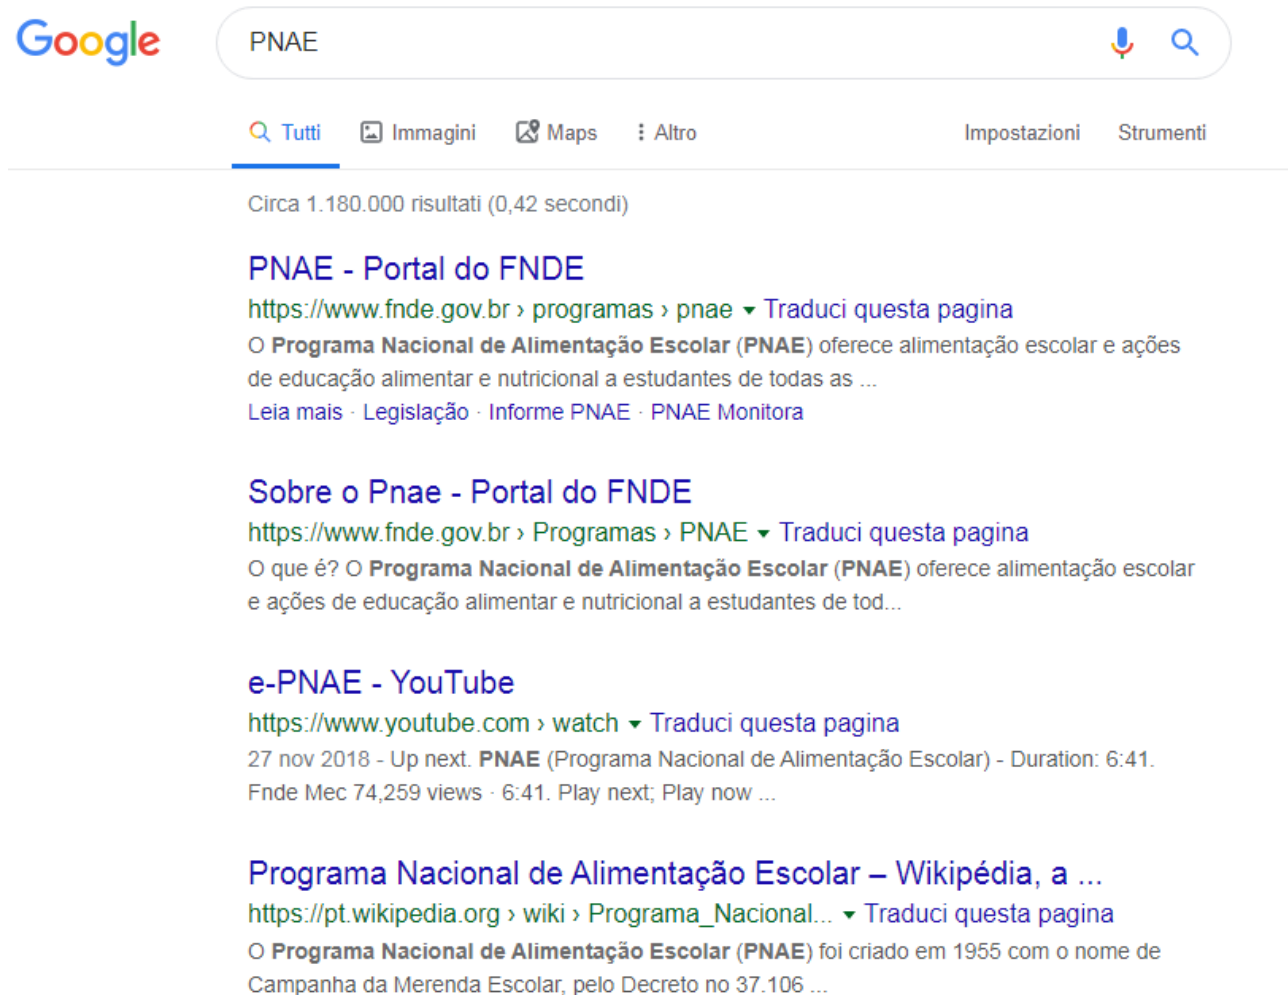

- It is very important for visibility
- The aim is →→ let me easy to search me on the web (...google)
- There are specific strategies but we need to decide:

PNAE or Pediatric Nursing Associations of Europe
