

**PNAE**

**Paediatric Nursing Associations  
of Europe**

## **PNAE – Priority Exercise (2020)**

**Co-ordinator PNAE – Professor Jane Coad**

**Deputy - Dr Immacolata Dall'Oglio**

**Secretary- Jean Davies**

**35° PNAE meeting (on-line)**

**2020**  
**INTERNATIONAL YEAR**  
**OF THE NURSE AND**  
**THE MIDWIFE**

# 2020-2022 Priority Exercise

- **New priority setting exercise (2020-2022)**
- **Work alone or work in twos/groups on 3 or 4 issues**
- **Dissemination of outputs (including webinars?)**
- **Congress (Estonia) was June 2020 now 2021 due to Covid19**
- **New challenges / new changes in society/ new clinical advances / new changing priorities**

# 2020-2022

## Priority Exercise

- Update prior statements, relevance , changes & literature and dates and ?send out new questionnaires (2) and creating uniformed European guidelines and procedures for Paediatric nurses (1)
- Agree about previous work activities – what to do with them (leave or develop) (4)
- Make a statement on family-centred care for children (using European Foundation for the care of Newborn infants - EFCNI etc) (1)
- All admitted children / adolescents must have the opportunity to have a parent with them (1)
- Creating online support for children and parent (1)
- Support professional content and policy regarding pediatric nursing (1)

# 2020-2022

## Priority Exercise

- **Develop an updated statement on ‘children’ and ‘pediatric’ definition (1)**
- **Discussion about the age limit of pediatric and pediatric nursing, especially for young adult affected by chronically illness (18 years old or 24??) We could provide a literature review, a survey and finally a statement (2)**
- **Creating a unique ‘textbook’ on Pediatric nursing at the European level (1)**

# 2020-2022

## Priority Exercise

- More research/scientific approaches to activities (2)
- Be active collaborating in research across Europe about pediatric nursing .....(Such as - we could 1- collaborate with Espnic and/or 2- develop a Delphi study about research priority about pediatric nursing across Europe) (2)
- Influence to the development of nursing through international research projects range of nursing care (1)
- Support a collaboration across 1 or 2 countries or more to support a Phd/Research project etc (PNAE would not finance this but we could support) (1)
- Nursing exchange for education and gaining experience (1)

# 2020-2022 Priority Exercise

- **Four of PNAE said COVID-19 but 3 others said no to this directly as other associations are doing this - but 2 said we could integrate into other work activities /standards /safeguarding /workforce etc**

# 2020-2022

## Priority Exercise

- Recruitment and workforce Issues (7) plus safe staffing (1)
- Website and communication (2)
- Care of children in Primary Care – School Nurses/Community Nurses (1)
- Prevention of involuntary detention of children by painful procedures (1)
- Neonates (4) – Education, skills and Care policy updates (Contact Ivona)
- Mental Health Assessment and support – or work with another Association etc to write a statement (1)

# Key messages.....

- We want to work together and be responsive to key influences for change
- We want to share new roles, settings and ways of working
- We want to share what's important to children and families in each country and across Europe
- But many of us said we need to think differently.....

# Proposal ?

- This was just start to get your ideas – What now?
- A survey with response sections for the priorities
- Response sections will need you lead and/or Co-lead projects or sub-groups?
- What do you think?

**Thank you**

**Any questions  
or comments  
please ?**
