SAVE THE DATE! 6th PNAE CONGRESS in Rome, 28th and 29th September 2023

- 1°- The Abstract circulation advice since March 2023
- 2°- Advice for abstract submission extended dead line April 2023
- 3°- Remind dead line 17 th May ... May 2023

Welcome Message

Dear Colleagues,

We cordially invite you to join us at the **6th PNAE Congress on Paediatric Nursing** which will be held in Rome, September 28th and 29th 2023. The Congress is organised by the Paediatric Nursing Associations of Europe (PNAE) in collaboration with the National Federation of Orders of Nursing Professions (FNOPI) of Italy and Italian Society of Paediatric Nursing.

For this congress, we have joined forces to promote and share quality Paediatric Nursing care across Europe, underpinned by high levels of theoretical knowledge, best evidence and skills to deliver the care required and thus improve health outcomes of babies, children and young people.

In the last few years, we have witnessed many challenges and solutions to delivery of care, and we would like to share and celebrate these experiences in the city of Rome.

The Scientific Programme of the Congress will include a large number of educational and scientific events, along with abstracts from distinguished Paediatric Nurses who will share with us their research, practical knowledge and experiences regarding the care of babies, children, young people and their families.

We would like to particularly thank the National Federation of Orders of Nursing Professions (FNOPI) of Italy for their support in enabling this Congress to be held at the premises of Rome and for all the important Institutional and Academic partnerships that are collaborating for this international, scientific event.

We anticipate the attendance of all Nurses who work with babies, children, young people and their families across Europe, as the 6th PNAE Congress on Paediatric Nursing will be an important event in being together and sharing experiences.

Rome is also known as the 'Eternal City' and is both immersed in ancient history and contemporary vibrance. We feel this is an ideal location for our Congress and we look forward to welcoming you

Sincerely,
on behalf of all PNAE members

- 1 → A great work from **Scientific Commette** and **Organizational Commette**
- 2 → **A great support from FNOPI !!!**
- 3 → The subscription fee is affordable for nursing target

Thank you to all

Dinner for Speaker and moderators in site. Other persons could provide the dinner in the location paying directly to the hotel (?????)				
h. 19,30-22				
Speakers: 2 Keynotes or invited speakers (30 min.)				
1) The role of Clinical Academic Research in Children and Young's Peoples Nurses Careers and Impact on Care				

Let's go on Exploring together the 6° PNAE Congress website

Are all the information available???

What do we need to do now???

Next steps:

- To update the preliminary program
- To Improve «faculty» section of 6° PNAE Congress website
- To Improve «partnership» section of all the national associations uploaded the 6° PNAE Congress information on their own website?
- To Improve «sponsor» section of website

What about the abstracts submission?

Until last week we received n. 125
abstracts!!!

What about the abstracts submission?

- **Italy, Turkey, Ireland** (n. ranging from 48 to 18)
- **Iceland, Denmark Croatia** (n. ranging from 7 to 6)
- **Sweden, UK, Greece, The Netherlands, Norway, Belgium** (n. ranging from 3 to 1)

What do we need to do now???

Problems to discuss:

How could we improve the participation from all the countries?

- Did all the national associations upload the 6° PNAE Congress information on their own website?
- Did every member contact the paediatric hospitals or units in order to disseminate the 6° Congress Information?
- Which is the use of social network for this outcome?
- How could we involve the National Professional associations to actively improve and support the Congress participation among every country?

(e.g FNOPI will support the free participation for three students every bachelor course for Paediatric Nurse.

Provincial nursing orders are supporting the participation of some paediatric nurses at the congress)

What do we need to do now???

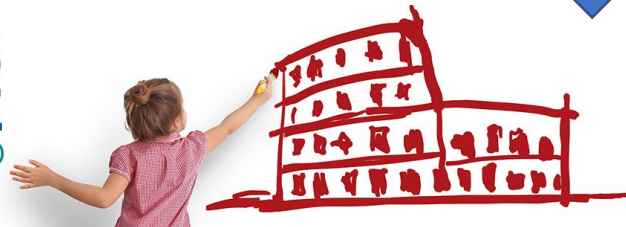

Problems to discuss:

How could we improve the participation from all the countries?

→ Which is the use of social network for this outcome?

You could begin from this in your e-mail !!
