# The PNAE Position statements

## Before beginning revision process, some questions:

- Which is the function of the PNAE position statements, **TODAY** (2024)?
- Which kind of issues related with children health and paediatric nursing can be a PNAE Position Statement?
- How to review the position statement according with actual standards?
- Which format for PNAE Position Statements?
- How to integrate in PNAE Position Statements other international important documents?
- Other possible questions?

# Questions?

1. Is your document up to date?

4. **Or** do you want to keep it in the PNAE web pages but add some changes or re-write– start these today  
Use the internet /laptops to help  
**AND** do a time plan for completion
5. Or do you want it to go in an archive in the PNAE website?  
(This might mean we don't need it anymore or re-write as point 4)
